

University of Connecticut  
Department of Residential Life  
Disclosure of Information on Lead-Based Paint and/or Lead-Based Paint Hazards

**Lead Paint Warning Statement University of Connecticut**

Housing built before 1978 may contain lead-based paint. Lead from paint, chips and dust can pose health hazards if not managed properly. Lead exposure is especially harmful to young children and pregnant women. Before renting pre-1978 housing, landlords must disclose the presence of known lead-based paint and lead-based paint hazards in the dwelling as required by U.S. Law. Lessees must also receive a federally approved pamphlet on lead poisoning prevention.

At the University of Connecticut Mansfield Apartments, Northwood Apartments, and other apartments in various residence halls were constructed prior to 1978. In compliance with this act this is to inform you that:

- 1. The Department of Residential Life has no knowledge of the presence of lead-based paint or lead-based hazards in our housing.**
  
- 2. The Department of Residential Life has no reports or records pertaining to lead-based paint and/or lead-based paint hazards in our housing.**

Upon occupying an apartment that was constructed prior to 1978, you will be supplied with a pamphlet, ***Protect Your Family From Lead in Your Home***, published by the EPA pertaining to lead-based paint hazards.

Please contact us at 860-486-5249 if you require this pamphlet in a language other than English. The pamphlet is available in the following languages and can be downloaded from the EPA site:
