

Getting Ready for UConn?

Here's what you need to know:

Assignment information will be available in MyHousing on August 9, 2021

RELATIONSHIPS

Students who live on-campus have convenient access to all the resources offered by the University, including academic support, recreational activities and opportunities for involvement!

FIRST CONTACT

Once your assignment is posted, we strongly encourage students to contact your roommate(s).

It is important to remain open minded about your roommate(s). It takes a while to get to know someone and information posted on social media is not always an accurate representation of a person.

ROOMMATES

Roommate pairings are based on the personal preference information on the housing applications.

New students and current students live near each other, often on the same floor.

Housing Services will be able to honor mutual roommate requests that were submitted before the roommate pairing deadline.

CO-ED VS. SINGLE SEX

Most of our residential areas are co-ed and students are placed into a room with a person of the same legal gender.

Not all students who requested single-gender housing were assigned to that type of accommodation.

Floor bathrooms are designated by gender and all co-ed floors have two separate bathroom facilities.

Students have been assigned to all available housing spaces and we are not able to accept any room change requests until the Fall Room Change Process opens during the fall semester.
